

FOR IMMEDIATE RELEASE

PRESS RELEASE

Rocky Mount, NC, (March 12, 2019) – Ilco is please to introduce the latest Futura Model, the **Futura Auto**.

The **Futura Auto** is an electronic key cutting machine with one cutting station and two interchangeable clamps for duplicating and originating edge cut and laser style automotive keys, including heavy trucks and motorcycles. Additional keys used for gas cap locks, glove boxes and roof racks are also included in the database.

Introduced in 2014, the innovative Futura Series of electronic key machines continue to be the standard for key cutting technology. A dedicated web page will assist you in determining which of the four Futura models will fit your needs.

*Since 2014 the
Futura Series continues to
set the standard for
electronic key cutting.*
