

Kreate-A-Key™
Premium Key Data Software

Ilco, in partnership with W.H Software brings to market the most comprehensive key data software available. Kreate-A-Key® is easy to install and operate, a complete software package designed by Security Professionals. Whether you specialize in automotive, residential and/or commercial, this is the only code program you need. Use Kreate-A-Key "stand-alone" or interface with popular electronic key cutting machines. This powerful software contains over 3 billion key codes with new codes added daily, making this a vital tool for any security professional.

Everything you Need:

Kreate-A-Key comes with everything you need including over 8000 key code series. WH Software is continually researching, verifying and adding new series to ensure that our software remains the most complete key code system.

Easy to Use:

Kreate-A-Key features an intuitive user interface, which utilizes predictive text entry. In most cases Kreate-A-Key will find the correct information with just the first few letters, eliminating the need for full data entry. It's that easy! Searches can be performed in a number of ways including searching by any combination of code, manufacturer, vehicle make, model and year, card number, key blank reference and key type.

Features:

- Cross-reference for 132 key blank manufacturers and 70,000+ references
- Includes key blank and profile images
- Print complete code series
- Search for bittings across a range of code series
- Archive customer key codes
- Each purchase is licensed for installation on three machines (one single company)
- Multi-language support
- Live updates via the Internet as new code series becomes available
- Interfaces with popular electronic key cutting machines (see list at www.kreate-a-keys.com)

Stay Up-To-Date:

Kreate-A-Key comes complete with over 3 billion key codes with new codes added daily.

User-friendly Interface:

A clear interface with presentation of space and depth information, flat widths, angles, card number and other relevant key cutting information make Kreate-A-Key easier to use than the alternatives.

Stay at the Cutting-Edge:

Kreate-A-Key performs live updates, which periodically checks for new updates via the Internet.

Enhance Your Capabilities:

Kreate-A-Key is loaded with features and optional modules further increase your capabilities.

- **Automotive module**
- **Master-Keying module**
- **Triax module**

Specifications:

Components: Auto Install CD Windows Application

Minimum Computer Requirements:

- Pentium CPU
