1549 Key-in-Deadbolt Replacement Cylinder

The 1549 cylinder fits Corbin/Russwin (DL2100, DL3100) and Yale (3500, 3600), single and double cylinder deadbolts. A tailpiece and metal adapter are included with each cylinder.

The 1549 tailpiece is constructed from cold-headed, solid brass stock for the strongest, best design available in the replacement market today. A screw-on cap plug/tailpiece retainer insures an easy installation and secures the tailpiece more effectively than competitive models.

- Drilled 6, pinned 5
- Available in 32 popular keyways
- Master Key and Grand Master Key compatible into OEM systems
- Screw-on cap plug/tailpiece retainer
- Tailpiece and adapter included
