

Ford & Land Rover Key HU101

**A31 Adapter Required for
057 HS, Matrix S, Triax e.code, and Triax A/T**

An adapter (A31) is necessary to clamp and gauge the Ford & Land Rover key (HU101) on 057 HS, Matrix S, and Triax series key machines.

A31 Adapter Only*

Part Number: **BD0724XXXX**

Triax e.code Software Update - A31 Adapter requires DB30.03 or higher

Part Number: **BK0168XXXX**

Triax A/T Software Update - A31 Adapter requires DB6.04 of higher

Part Number: **BK0315XXXX**

***Note:** Two adapters are required for the 057HS and Matrix S in order to grip both the pattern key and the key blank.

Updating Software:

A RS232 serial port is needed to update software. If your computer is not equipped with this port, you will need an "USB to Serial Adapter". To date, we have found that the *Keyspan® by Tripp Lite USB to Serial Adapter* (# USA-19-HS) to be the most compatible and reliable brand.

This product is available from several retail stores and websites or you may order directly from Kaba Ilco Corp. (Part Number: **BM0119XXXX**).
